## About me

I'm a multi-disciplinary developer and designer, proficient in React and Angular, seamlessly integrating design and programming perspectives.

## Experience

### Frontend Developer @ Freelancer

Sep 2021 – 2023 (2 years)

Developed conceptual products from scratch, utilizing design process tools (Figma, Adobe XD) and deploying designs into real websites with React.js and Next.js.

### Software Engineer & UX/UI Designer @ SISCOG SA

March 2023 – Present (> 1 year)

Led efforts to unify and improve software interfaces, combining Common Lisp and Web programming teams for integrated scheduling and resource management applications.

## Education

### Bachelor´s in Information Technologies @ University of Lisbon

Sep 2018 – 2021

Studied Python, web programming languages, and industry-standard IT tools, covering core aspects of Information Technologies.

### UX/UI Design Master @ Nuclio Digital School

Sep 2022 – 2023

Specialized in UX/UI design, including user research, prototyping, and interface components at Nuclio School – Barcelona.
